The SIA is looking for a

Full-Stack web developer

(m/f/d, 60–100%, temporary post)

YOUR NEW WORKPLACE

The Swiss Society of Engineers and Architects (SIA) is the leading professional association for construction engineering, architecture, technology, and environment specialists. The SIA consistently places itself at the service of its members. Together with them, it is committed to Baukultur with the goal of a sustainable living space of high quality.

YOUR TASKS

As a Full-Stack web developer you will be part of the Scrum DEV team in the SIA's IT department. Your main task will be developing the Front-End REACT UI in the new SIA-Webplattform.

YOUR PROFILE

You have sound knowledge of web developing and longstanding experience – especially with REACT, REST API. The SIA relies primarily on Python-based opensource applications running inhouse on Linux. Developing and implementing creative concepts independently is your strength. You find solving complex tasks a welcoming challenge. You are fluent in either German, English or French; knowledge of the other languages is an advantage.

OUR OFFER

You can expect a varied job with broad creative opportunities in a committed and enriching environment. We offer good opportunities for your professional development and networking, a modern working environment and attractive employment conditions – including fair and equal pay for women and men. The position is initially time-limited to six months.

YOUR NEXT MOVE

We look forward to receiving your application by email to Doris Wachter, SIA HR Manager, doris.wachter@sia.ch. For further details please contact Davide Malnati, SIA Head of IT, 044 283 63 61, davide.malnati@sia.ch. You can find more information at www.sia.ch/karriere.
