The SIA is looking for a

Full-Stack web developer + Level 3 Support m/f/d, 100%

YOUR NEW WORKPLACE

The Swiss Society of Engineers and Architects (SIA) is the leading professional association for construction engineering, architecture, technology, and environment specialists. The SIA consistently places itself at the service of its members. Together with them, it is committed to Baukultur with the goal of a sustainable living space of high quality.

YOUR TASKS

As a Full-Stack web developer you will be part of our Scrum DEV team in the SIA's IT department. Thanks to your skills in various technologies and programming languages, you will be called upon to develop the front-end of a new web application based on tasks defined in the sprint and the chosen system architecture and technologies.

You will work with different technologies, in specific, for front-end development in REACT, APIs implementation in Python to interfacing our ERP and Postgres DBs. For back-end you will develop specific engines for synchronization or structures for specific applications of the webplatform.

Another part of your job will be the level 3 support within SIA's IT service support for some of our internal systems, such as the 3CX-based telephony system or our NextCloud-based internal cloud.

YOUR PROFILE

You have sound knowledge and longstanding experience in web development – specifically with REACT, APIs, Python and DBs (Postgres). The SIA relies primarily on opensource systems and platforms running inhouse on Linux. You independently develop clear concepts meeting the defined requirements. You find solving complex tasks a welcoming challenge. You are fluent in either German, English or French; knowledge of the other languages is an advantage.

OUR OFFER

You can expect a varied job with broad creative opportunities in a committed and enriching environment. We offer good opportunities for your professional development and networking, a modern working environment and attractive employment conditions – including fair and equal pay for women and men.

YOUR NEXT MOVE

We look forward to receiving your application by email to Doris Wachter, SIA HR Manager, doris.wachter@sia.ch. For further details please contact Davide Malnati, SIA Head of IT, 044 283 63 61, davide.malnati@sia.ch. You can find more information at www.sia.ch/karriere.
