

EUROPEAN STANDARD

**EN 16002:2018/AC**

NORME EUROPÉENNE

October 2021

EUROPÄISCHE NORM

---

ICS 91.100.50

English version

Flexible sheets for waterproofing - Determination of the resistance to wind  
load of mechanically fastened flexible sheets for roof waterproofing

Feuilles souples d'étanchéité - Détermination  
de la résistance à l'arrachement au vent des  
feuilles souples d'étanchéité de toiture fixées  
mécaniquement

Abdichtungsbahnen - Bestimmung des  
Widerstandes gegen Windlast von  
mechanisch befestigten bahnförmigen  
Stoffen für die Dachabdichtung

This corrigendum becomes effective on 6 October 2021 for incorporation in the official English  
version of the EN.

## 1 Modification to 8.4, Insulation

*Replace the text of the two alineas below specification c) with:*

“Other insulation materials may be used for the test but in this case the application rules as defined in Clause 11 are not applicable. In this case the insulation material which is used shall be specified in detail within the test report. These insulation boards shall be installed in such way that free airflow is ensured from the outside of the test sample to the total area between the insulation board and the underside of the waterproofing membrane.”.

## 2 Modification to Clause 12, Test report

*Replace the text of information s) with:*

“ description of how free airflow is ensured according to requirement in 8.4”;

*Add below information s):*

“t) any other factor that could have influenced the result.”.
